Schedule #1—General Info	prmation
County-district number or vendor ID: 007-904	Amendment # (for amendments only):
Part 3: Schedules Required for New or Amended Applications	

An X in the "New" column indicates a required schedule that must be submitted as part of any new application. The applicant must mark the "New" checkbox for each additional schedule submitted to complete the application.

For amended applications, the applicant must mark the "Amended" checkbox for each schedule being submitted as part of the amendment.

Schedule	Schedule Name	Applicat	Application Type		
#	Schedule Name		Amended		
1	General Information		X		
2	Required Attachments and Provisions and Assurances	X	N/A		
4	Request for Amendment	N/A	$\boxtimes$		
5	Program Executive Summary				
6	Program Budget Summary				
7	Payroll Costs (6100) – State Funds				
7	Payroll Costs (6100) - Federal Funds				
8	Professional and Contracted Services (6200) –State Funds

Schedule #2—Required Attachmen	ts and Provisions and Assurances
County-district number or vendor ID: 007-904	Amendment # (for amendments only):
Part 1: Required Attachments	

The following table lists the fiscal-related and program-related documents that are required to be submitted with the application (attached to the back of each copy, as an appendix).

#	Applicant Type	Name of Required Fiscal-Related Attachment
No	fiscal-related attachments are re-	quired for this grant.
#	Name of Required Program-Related Attachment	Description of Required Program-Related Attachment
No	program-related attachments are	e required for this grant.
Pari	2: Acceptance and Complian	ce

By marking an X in each of the boxes below, the authorized official who signs Schedule #1—General Information certifies his or her acceptance of and compliance with all of the following guidelines, provisions, and assurances.

Note that provisions and assurances specific to this program are listed separately, in Part 3 of this schedule, and

require a separate certification.

X	Acceptance and Compliance
$\boxtimes$	I certify my acceptance of and compliance with the General and Fiscal Guidelines.
$\boxtimes$	I certify my acceptance of and compliance with the program guidelines for this grant.
$\boxtimes$	I certify my acceptance of and compliance with all General Provisions and Assurances requirements.
$\boxtimes$	I certify that I am not debarred or suspended. I also certify my acceptance of and compliance with all Debarment and Suspension Certification requirements.

Schedule #2—Required Attachments	and Provisions and Assurances
County-district number or vendor ID: 007-904	Amendment # (for amendments only):
Part 3: Program-Specific Provisions and Assurances	

I certify my acceptance of and compliance with all program-specific provisions and assurances listed below.

#	Provision/Assurance
1.	The applicant provides assurance that program funds will supplement (increase the level of service), and not supplant (replace) state mandates, State Board of Education rules, and activities previously conducted with state or local funds. The applicant provides assurance that state or local funds may not be decreased or diverted for other purposes merely because of the availability of these funds. The applicant provides assurance that program services and activities to be funded from this grant will be supplementary to existing services and activities and will not be used for any services or activities required by state law, State Board of Education rules, or local policy.
2.	The applicant provides assurance that the application does not contain any information that would be protected by the Family Educational Rights and Privacy Act (FERPA) from general release to the public.
3.	The applicant provides assurance that they will work with the TEA chosen assistance provider as outlined in this RFA.

Schedule #4—Requ	est for Amendment
County-district number or vendor ID: 007-904	Amendment # (for amendments only):
Part 1: Submitting an Amendment	

This schedule is used to amend a grant application that has been approved by TEA and issued a Notice of Grant Award (NOGA). **Do not submit this schedule with the original grant application.** Refer to the instructions to this schedule for information on what schedules must be submitted with an amendment.

An amendment may be submitted by mail *or* by fax. Do not submit the same amendment by both methods. Amendments submitted via email will not be accepted.

If the amendment is mailed, submit three copies of each schedule pertinent to the amendment to the following address: Document Control Center, Grants Administration Division, Texas Education Agency, 1701 N. Congress Ave., Austin, TX 78701-1494.

If the amendment is faxed, submit one copy of each schedule pertinent to the amendment to either of the following fax numbers: (512) 463-9811 or (512) 463-9564.

The last day to submit an amendment to TEA is listed on the <u>TEA Grant Opportunities</u> page. An amendment is effective on the day TEA receives it in substantially approvable form. All amendments are subject to review and approval by TEA.

#### Part 2: When an Amendment Is Required

For all grants, regardless of dollar amount, prior written approval is required to make certain changes to the application. Refer to the "When to Amend the Application" guidance posted in the Amendment Submission Guidance section of the Grants Administration Division Administering a Grant page to determine when an amendment is required for this grant. Use that guidance to complete Part 3 and Part 4 of this schedule.

Schedule #5—Prog	ram Executive Summary
County-district number or vendor ID: 007-904	Amendment # (for amendments only):
	ver. Refer to the instructions for a description of the requested rovided, front side only, font size no smaller than 10 point Arial.
Indicate which grant you are applying for:  □ P-TECH	⊠ ICIA □ Both

Opening Statement: Lytle High School has yet to be designated as an Early College High School as of Fall 2017. It is the goal of campus administrators and teachers to provide its students with a coherent sequence of classes that can lead to a high school diploma and an Associate's degree. Utilizing funds obtained from this grant, the district will apply for designation in February 2019 as a ICIA campus in order to immerse students in rigorous educational opportunities that are: Connected to Texas' labor market demands; Responsive to employer needs; and Focused both on educational and employment outcomes. In particular, grant funds will be utilized to implement a scale-up model that will ultimately enable students in grades 9th through 12th by the 2022-2023 academic school year, who are at-risk of dropping out or who wish to accelerate completion of high school, to combine high school courses and college-level courses by providing rigorous academic and work-based programs that offer students a clear pathway to skilled employment opportunities while also responding to local workforce needs.

Development of Budget: The budget adequately supports the activities outlined in the grant proposal. (10 pts.) In order to develop the proposed 16-month budget, the district outlined activities, goals, and milestones that would ensure the campus was prepared to establish the foundational components of the ICIA school by the 2019-2020 school year. The district identified Advanced Technologies and Manufacturing, (5 pts.), one of the Governor's Industry Clusters, as their targeted program. While preparing to offer this cluster, the district will focus on: Establishing required partnerships; Identifying and recruiting teachers and students to participate in the program; and Budgeting funds needed to provide appropriate equipment, assessments, professional development, and program management. By taking into consideration all of the aforementioned activities during the development of the budget, the district was able to obtain an accurate understanding of the amount of grant funds that are required to meet the defined goals of the application.

Demographics of Campus/District Relate to the Defined Goals and Purposes of the Grant: The proposed program is appropriate to and will successfully address the needs of the target population or other identified needs. (8 pts.) Needs assessment findings revealed that Lytle High School had a high percentage of students who are at-risk as defined by PEIMS (TEC§29.081) and/or are traditionally underrepresented in college. Lytle ISD has 71.4% of its students identified as Economically Disadvantaged (State 59.0%), and 36.7% as At-Risk. Furthermore, only 30.0% of the students graduated College Ready in English and Math (State 38.7%) and 45.9% of the graduates enrolled in a Texas Institution of Higher Education (State 56.1%). Finally, only 47.8% of the students SAT or ACT tested (State 71.6%) of which only 7.8 met or were above criterion (State: 22.5). Therefore, if awarded, the proposed program will assist in addressing the needs identified with the target population.

Who Designed the Needs Assessment Process, Determines Its Efficacy, and Determines When and How the Process Needs to be Updated or Changed: The initial needs assessment process was designed and reviewed by the district and campus administrators, to include the Superintendent, Assistant Superintendent, Business Manager, Principal, Vice Principal, Lytle High School Counselor, and other district/campus personnel. If awarded, the campus administrators and Project Director will be responsible for determining the effectiveness of the assessment produced and for ensuring the results clearly identify the gaps and weaknesses of the campus. These individuals will meet on a quarterly basis, to assess and review the strategies and activities being conducted. If areas of weakness are identified, the campus administrators and Project Director will review the processes and modify them as needed to include the unaddressed areas or needs. Any significant changes will be presented to the School Board Members, TEA's selected Technical Assistance Provider (TAP), and TEA for approval.

The Management Plan Developed for the Grant Program—Without Naming Individuals Who Will Fill Certain Roles, As That May Change, Describe How You Will Ensure That the Program Receives Consistent, High-Quality Management: Qualifications, experience, and certifications of program personnel and external consultants are of sufficient quality and depth to ensure successful implementation. (5 pts.) To ensure the program receives consistent, high-quality management, a Project Director will be assigned to oversee the program. This individual will be required to hold a minimum of a Master's Degree in Educational Management. A minimum of 5 years' experience with curriculum and instruction, managing programs, budgets, personnel, and dealing with vendors. The Project Director, along with the campus/district administrators, and the TEA selected TAP will develop an articulation agreement with Palo Alto College that will detail how the Associate's degree and accrued credits can lead to a baccalaureate degree, appropriate work-based education for 100% of the participating students. In addition, businesses will be identified and recruited to take part in the

#### Schedule #5—Program Executive Summary (cont.)

County-district number or vendor ID: 007-904

Amendment # (for amendments only):

Provide a brief overview of the program you plan to deliver. Refer to the instructions for a description of the requested elements of the summary. Response is limited to space provided, front side only, font size no smaller than 10 point Arial. program. Partnership agreements will be established that will detail the appropriate work-based education that will be provided to students. The Project Director, campus/district staff, Palo Alto College staff, and partnering businesses' representatives will all be part of the Leadership Team, which will meet on a quarterly basis. During this time, the team will determine if the campus is demonstrating progress in meeting milestones and objectives that have been set forth in the grant. Based on findings, a report will be prepared and submitted to the Superintendent for review. A copy of this report will also be made available on the district and campus websites. If needed, changes to the program will be proposed and submitted to the Superintendent and School Board for review. The creation of this Leadership Team along with the extensive review process will also contribute to a successful in establishing the foundational components of the ICIA School, as outlined in TEC §29.908 (ICIA).

Methods to Evaluate the Program, Including Means to be Used to Measure Progress in Defined Program Areas: The methods of evaluation include the use of objective performance measures and indicators of program accomplishment that are clearly related to the intended results of the project and will produce quantitative & qualitative data to the extent possible. (3 pts.) The procedures ensure feedback and continuous improvement in the operation of the proposed program through ongoing monitoring and adjustments as needed. (3 pts.) In order for to monitor the attainment of the program's goals, strategies, and objectives, the district will ensure that clearly specified and measurable processes and procedures are in place. The evaluation process towards ICIA designation will include: Conducting surveys to provide continuous feedback on the program; Collecting feedback from partnering agencies on meetings held to prepare for designation; Surveying parents and students to ensure that informational and feedback strategies being implemented are successful (qualitative); and Having the TEA assigned Technical Assistance Provided (TAP) complete a questionnaire evaluating the district's planning strategies and progress in completing the implementation plan and ICIA Blueprint.

Application Completely and Accurately Answers All Statutory Requirements: Application is organized and completed according to instructions. (5 pts) The administrators met and reviewed the completed application to ensure that all Statutory and TEA Program Requirements were answered completely and accurately. This included:

- Identifying a Governor's Industry Cluster (as identified in Schedule #5 Program Executive Summary) to focus
  on. Key stakeholders had the opportunity to provide feedback and responses provided by district staff, as well as,
  the local workforce needs prior to selecting Advanced Technologies and Manufacturing (5 pts.); and
- Confirming the district was within counties impacted by Hurricane Harvey (10 pts.).

Conclusion-District's On-Going Commitment to The Goals of The Grant and Funding Sources to The Program Beyond Grant Funding: To ensure that all project participants remain committed to the success of the project, the district has received commitments from participants, including administration and partnering agencies. A Project Director will be assigned to oversee the program and distribute information to parents, students, teachers, district/campus administrators, and community members. The Project Director will be responsible for ensuring that activities and strategies being implemented are of sufficient quality and scope for the continued commitment of stakeholders. On-going support will also be provided by the TEA selected TAP, district/campus administration, and partnering agencies and consultants. In addition, the proposed program will be coordinated with similar or related efforts using existing resources and facilities and with other appropriate community, state, and federal resources to maximize the effectiveness of grant funds beyond funding. (3 pts.) Lytle High School will align and complement existing resources, goals, and interventions including: personnel, technology and infrastructure, curriculum, software, facilities, and trainings. Below is a sample of existing resources and interventions that will be utilized and how they will be aligned:

- SMART Lab (Local Funds) Provides students an engaging program where students explore STEM and media arts through applied technology and project-based learning. The programming will be tied to Advanced Technologies and Manufacturing courses in order to motivate and engage students; and
- Computers (Career and Technology Education (CTE) Funds) Provides students access to the Internet to
  research various CTE Pathways so that students can identify their preferred field of study. The funds also allow
  students to complete coursework in their CTE courses.

### Schedule #13---Needs Assessment

County-district number or vendor ID: 007-904

Amendment # (for amendments only):

Part 1: Process Description. A needs assessment is a systematic process for identifying and prioritizing needs, with "need" defined as the difference between current achievement and desired outcome or required accomplishment. Describe your needs assessment process, including a description of how needs are prioritized. If this application is for a district level grant that will only serve specific campuses, list the name of the campus(es) to be served and why they were selected. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Systematic Process for Identifying and Prioritizing Campus to Be Served: Lytle High School was selected by Lytle ISD to apply for the 2018–2019 P-TECH and ICIA Planning Grant. This selection was made because, although it has yet to be designated as an Early College High School, the goal of the district is to provide students with a coherent sequence of classes that can lead to a high school diploma and an Associate's degree. As the only high school in the district, it is a priority for the district to assist Lytle High School in obtaining designation as a ICIA campus and:

- Offer students opportunities to earn a diploma, associate's degree, and work credentials while in high school;
- Establish seamless student pathways in skilled, high-wage, high-demand career areas;
- Create clearly defined partnerships between the campus, partnering business, and the IHE to support students in the ICIA pathways;
- Increase access for students traditionally underrepresented in higher education and the skilled workforce; and

Contribute to the workforce needs of Texas employers.

Needs Assessment Process/Current Achievement: Details of the needs assessment methodology are provided, and the magnitude or severity of the problem to be addressed by the proposed program is significant. (10 pts.) In preparation for the submission of the 2018–2019 P-TECH and ICIA Planning Grant, the district analyzed the needs of Lytle High School. Campus data was analyzed utilizing information garnered from sources including the Texas Academic Performance Report (TAPR), School Report Cards (SRC), Texas Consolidated School Accountability Report (TCSR), and Texas Performance Reporting System (TPRS). These reports indicated the following gaps in economically disadvantage student performance:

Desire States		THE RESIDENCE AND ADDRESS OF THE PARTY OF TH	Needs Assessmen	t Res	uits	Many and		The state of the s
	Attendance Rate	College-Ready Graduates	SAT/ACT Tested	At/A	bove Criterion	Averag Sco		Average ACT Scores
State	95.8%	38.7%	71.6%		22.5%	13	75	20.3
Campus	93.5% 25.9%		44.1%				273 16.8	
	Completion of Advanced/Dual of Current and/o	redit Courses in	Graduates Enrolle Texas Institution Higher Educati	n of	Advanced Cou credit Cou Complet	ırse	TSI Ass	essment Results (Math)
State	48.	7%	56.1%		55.0%			18.1%
Campus 41.8%		45.9%		54.6%	54.6%		15.4%	

How Needs Were Prioritized: As the result of a robust assessment effort, specific needs have been identified and strategies to address those needs have been described. (10 pts.) In addition, the district also conducted a needs assessment of the community. Data obtained from the U.S. Census Bureau's American Fact Finder indicated that Lytle, Texas has a total population of 2,492 of which 15.2% live in poverty and 3.8% are unemployed, compared to 3.9% for the State of Texas. Furthermore, of the population that is between the ages of 25 and older, 20.9% have failed to receive their high school diploma, 37.4% graduated but have not received any post-secondary education, and 20.2% took some college but did not receive a degree.

To address this need, the district first reviewed the Texas Workforce list of Top 25 Occupations by Help Wanted Postings for Atascosa County. Based on the data obtained, it was determined that there was a high need for individuals that are trained or hold a degree in advanced manufacturing. In fact, there was a 13.9% increase in help wanted postings since January 2016. Texas Career Check lists the following salaries for these targeted occupations:

OCCUPATION INFORMATION					
	69 Assemblers and Fabricators, All Other	\$29,229			
	64 Welders, Cutters, and Welder Fitters	\$45,253			
First-Line Supervisors of Production and \$118	16 Computer Numerically Controlled Machine	Γοοl \$45,424

Part 2: Data Collection and Problem Correction. Describe the processes for collecting data that are included in the evaluation design, including program-level data such as program activities and the number of participants served, and student-level academic data, including achievement results and attendance data. How are problems with project delivery to be identified and corrected throughout the project? Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Processes for Collecting Data: The evaluation design includes processes for collecting data, including program-level data (such as program activities and the number of participants served) and student-level academic data (such as achievement results and attendance data). (3 pts.) The district will evaluate the program and ensure the program is on target to meet its proposed outcomes. The Project Director will be required to collect data and develop bi-annual reports to be submitted to the district for review. The methods of evaluation provide for examining the effectiveness of strategies. (2 pts) The following table illustrates the data to be collected and when it will be collected:

#### **DATA COLLECTION PROCESSES** Data reports of projected student enrollment into the ICIA Program with the following demographic Studentpercentages: student enrollment, at-risk, ethnicity, first-generation college students, English Language Level Data Learners, economically disadvantaged, and Special Education. This information will be collected as soon as the student enrolls in school and is assigned classes. Student logs and surveys detailing academic mentoring, support for intervention and acceleration, counseling, and student advisory services for academic and social/emotional support. This data will be collected and submitted to the Project Director on a monthly basis. Program-Leadership Design Team Members, Meeting Dates, Agendas and Meeting Minutes (including attendance) will Level Data be posted on the school's website. This data will be submitted on an on-going basis to the Project Director. Recruitment Recruitment Plan that includes: 1.) Marketing materials and timelines; 2.) Methods used to obtain input about Plan the implementation of the program from parents, community, businesses and post-secondary partners; and 3.) Regular activities to educate students, parents, Counselor, community, staff and school board members.

<u>Problems with Project Delivery to be Identified and Corrected:</u> The formative evaluation processes outlined in the application provides for the identification and correction of problems throughout the duration of the grant project. (2 pts) By administering surveys and collecting and consolidating formative data in a database on an on-going basis, the Project Director will be able to identify and correct any problems in the program. Performance measures will be utilized to assess program progress in meeting the stated goals and objectives. If any of the of the initiatives are deemed to be ineffective, the Project Director, campus/district staff, TEA selected TAP, IHE staff, and partnering businesses' representatives will convene to discuss alternate initiatives or activities that may be substituted.

County-district number or vendor ID: 007-904

Amendment # (for amendments only):

**Statutory Requirement 1:** Describe the proposed P-TECH or ICIA school structure and how the program will establish a recruitment and enrollment process that will meet the open-enrollment requirements of this grant. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

ICIA School Structure: The open enrollment ICIA campus will serve as a smaller learning community within a larger high school, a Project Director will be assigned to the campus who will have scheduling, hiring, and budget autonomy. In addition, the Project Director will ensure that all participating student data is disaggregated and reported as required. Since the campus will not be located on a college or university campus, an IHE liaison will be assigned. The liaison will ensure that regular use of the college's academic facilities is provided to students at least six times per year. This will include assisting with registration, providing degree planning for students, assisting with information on TSI Assessments, etc. In addition, a Leadership Design Team will be formed, which will be charged with providing expert information and feedback. Each member will be responsible for sharing and discussing agenda items and conveying information respective to their areas of expertise. Their expertise and input will play a vital role in the support and success of the P-TECH and ICIA Planning Program. Members of the Leadership Design Team will include:

- Superintendent Will assure the program is supported at the district level and assist with program sustainability;
- Project Director Will oversee all aspects of the program including maintaining the budget, providing curriculum
  oversight and program sustainability, coordinating staff development, monitoring student enrollment, maintaining
  communication with the college, and overseeing staff and building maintenance, among other duties;
- PAC President Will assure the program is supported at the college-level and assist with program sustainability;
- Dean of Pre-College Programs Will ensure that the department heads have seats and programs available for the participating students and ensure updates are provided to ICIA staff;
- PAC Liaison Will assist with program implementation, provide training and assistance to the Lytle High School Counselor, assist with registration, provide degree planning for students, attend parent trainings to provide information to parents on their respective college, and assist with information on TSI Assessments; and
- PAC Counselor Will oversee scheduling, Personal Graduation Plans (PGP) for all students, college visits, ICIA/ PAC crosswalks, college applications, scholarships, college visits, grade audits, grade conferences, PAC grade analysis, parent nights, recruitment, etc.

Establish a Recruitment and Enrollment Process: Strategies/activities ensure equitable access and participation among all eligible program participants. (5 pts.) The Leadership Design Team will meet to formalize a recruitment and enrollment process that meets the open enrollment requirements of the grant. The process shall not exclude or discourage the enrollment of any of the subpopulations of at-risk students, including, but not limited to, students who are of limited English proficiency or who have failed a state-administered assessment. Instead, the process will identify, recruit, and enroll subpopulations that are historically underrepresented in college courses (e.g., first generation college goers, students of low socioeconomic status, African American, Hispanic, etc.). Enrollment decisions shall not be based on state assessment scores, discipline history, teacher recommendation, or minimum grade point average (GPA). The process will include:

Recruitment – A timeline of recruitment events will be created that will be utilized as a guide for the recruitment and marketing process. Recruitment materials will be developed for distribution at feeder schools and other appropriate locations in the community. This will include brochures and marketing in Spanish, English, and/or relevant second language(s). Finally, a written communication plan will be prepared and approved for targeting identified audiences, parents, community members, school board, higher education personnel, etc. This communication plan will include targeted media outlets (local newspaper, school newspaper, Facebook), daily announcements, district and campus websites, and school marque.

Enrollment – 1.) The Project Director and/or Counselor will conduct an in-depth orientation and interview for both the parent/guardian and student. This orientation will cover the structure, goals, intent, and standard expectations. 2.) The student and parent/guardian will complete the enrollment application and written essay and submit in person to a Lytle Junior High or High School administrator. 3.) The application and written essay will be reviewed blindly with all identifying information hidden from the selection committee. The selection committee will consist of district and campus administration, Counselor, and teachers of Lytle Junior High or High School. 4.) Applications meeting the selection criteria will be placed in a lottery pool in which students are selected to become the future ICIA cohort by random drawing. 5.) The selected applicant and their parent/guardian will be notified by the Project Director or Counselor two weeks following the lottery drawing. 6.) The parent/guardian and students will have two weeks to notify the Project Director or Counselor of their acceptance or rejection of the invitation to become a member of the ICIA cohort. 7.) A second random lottery drawing will be held to fill any vacancies left to meet the TEA agreed upon maximum cohort size.

County-district number or vendor ID: 007-904

Amendment # (for amendments only):

Statutory Requirement 2: Describe how you will provide for a program/course of study that enables a participating student to combine high school courses and postsecondary courses. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Strategies and activities are of sufficient quality and depth to ensure accomplishment of the goals and objectives of the program according to the relevant statute. (5 pts.) Lytle ISD, in partnership with Palo Alto College, will design a program that will transform the traditional curriculum sequence and methods of instruction to allow for a closer alignment between high school and college. The Leadership Design Team, with assistance from the TEA assigned TAP, will develop a course of study list and crosswalk templates to be set forth in the ICIA Blueprint. These will provide clear plans and outcomes for a structured sequence of courses that combine high school and post-secondary courses to students in grade levels 9-12.

The course of study list will detail the series of courses a student will be required to complete before he/she can move on to the next level in their education. For example, a student will be required to successfully complete English I prior to taking English II. The course of study will encompass all the courses a student will take beginning their 9<sup>th</sup> grade year and continuing through their 12<sup>th</sup> grade year.

In addition to their core area classes (math, science, English, and social studies), students will also be able to select a program of study that will ensure that they are career ready. This will include Advanced Technologies and Manufacturing.

Each student's course of study will be aligned to a crosswalk, which will detail the college credit that will be obtained for each selected course. This will include the identified college course name, college course number, and college course credit. In this manner, the district can ensure that the program successfully combines the high school and post-secondary courses; thus, the student can graduate with a high school diploma and an associate's degree within the sixth anniversary of the date of the student's first day of high school.

Statutory Requirement 3: Describe how you will allow participating students to complete high school and receive the required diplomas, certifications and work-based education experiences. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The program activities relate directly to the program goals, local objectives, and strategies, as well as to the program description and project requirements. (4 pts.) Once the campus is ICIA Designated, campus administrators will work in close partnership with Palo Alto College, Precise Machine and Fab and P & L Enterprises, and Lytle ISD to allow participating students to complete high school and receive the required diplomas, certifications, and work-based education experiences that are proposed during and after the planning phase of this program. Precise Machine and Fab and P & L Enterprises will track and monitor the students' hours that are obtained during internships/externships. These hours will be submitted to the Project Director who will share the information with Palo Alto College so that they can obtain their Cooperative Education credit hours.

The success of this program will be ensured by creating a:

## Shared Vision and Understanding of Roles and Responsibilities -

- Expectations for students and parents;
- Memorandum of Understanding between education partners; and
- Memorandum of Understanding between business partners.

### **Culture of Learning and Support -**

- Focus on rigorous instruction, accelerated coursework, and work-based education;
- A college-going, career-focused culture that provides high school students with access to college facilities, internships/externships, and other services;
- Student support systems including tutoring, counseling, and mentoring; and
- Collaborative teaching and professional development.

#### Focus on Outcomes -

- Increase high school graduation and reduce drop-out rates for students at-risk of not graduating;
- Reduce barriers to college access for first-generation college-goers;
- Increase attainment of post-secondary education and training;
- Increase students' career readiness in career fields of high-demand that offer competitive pay; and
- Reduce the unemployment and poverty rates in the targeted area.

Amendment # (for amendments only):

Statutory Requirement 4: Describe how you will provide students with flexible class scheduling and academic mentoring. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Flexible Class Scheduling: Lytle ISD is prepared to meet the flexible class scheduling and academic mentoring challenges that will arise when partnering with Palo Alto College to offer students' college credit courses. In preparation for these challenges, the district researched strategies that are being implemented by Early College High Schools (ECHS), which have proven to be effective. The proposed program reflects up-to-date knowledge from scientifically based research and effective practice. (4 pts.) Based on research found of the Texas Early College High School website, the Lytle High School intends to offer a five-period block schedule consisting of 80-minute courses. Each Spring, the Project Director and Counselor will meet with students to discuss and allow the student to select their courses for the following school year. Once all students have made their course selections, the Project Director and Counselor will meet with Palo Alto College's Dean of Pre-College Programs, Liaison, and Counselor to ensure the department heads have seats and programs available for the participating students. The students will then be registered for their selected college courses. With the college courses entered into the schedule, the Project Director and Counselor will meet to fill in the open timeslots with the remaining courses that will be offered at the campus. The district feels confident that this procedure will provide students with the flexibility needed for designing their class schedules. Finally, the district will allow participating students an additional year to complete any required courses.

Academic Mentoring: In addition, the district has researched current academic mentoring practices that have proven to be successful. Due to the arduous schedule each participating student will have, the district feels that it is important to provide students access to an academic mentor who will support them by offering advice, sharing resources, and caring about their success. Therefore, the planned schedule will allow for a 30-minute academic advising period. During this time, participating students will report to their assigned academic mentor to be provided with additional assistance and guidance. This may include tutoring, homework assistance, and academic advising. Furthermore, the Project Director will coordinate efforts with Palo Alto College to have upper classmen from the college assigned as a student mentor for the students. The mentors will serve as a friend and role model to support and encourage the students in their academic and personal growth. The mentor will guide the student in making the difficult transition from high school to college.

Statutory Requirement 5: Describe how you will provide the program at no cost to students. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Lytle ISD will partner with Palo Alto College (PAC), Precise Machine and Fab and P & L Enterprises to provide participating students the opportunity to receive a high school diploma, work credential (certificate and/or license), and an associate's degree at no cost. An MOU will be established between the district and each party, which will detail the roles and responsibilities that each agency will be committing to. This will include the financial commitment that will be absorbed by each agency. The following illustrates some of the proposed cost allocations that are being considered for approval:

10 7 0 0 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1				
PROPOSED PLAN TO PROVIDE NO COST TUITION TO STUDENTS				
Tuition	Palo Alto College will waive all fees to all participating students for dual credit courses provided. In order to			
	offset this cost, Palo Alto College will utilize formula funds obtained through the State for dual credit courses			
	and will be based on contact and/or credit hours of instruction. These costs will include the use of college			
	facilities, college mentors, and staff.			
Books	Funds obtained from Average Daily Attendance (ADA) and Instructional Materials Allotment (IMA) funding			
	will be utilized to purchase or lease books required by students.			
Materials	Funds obtained from Average Daily Attendance (ADA), Instructional Materials Allotment (IMA), and Career			
and	and Technology Education (CTE) funding will be utilized to purchase materials and equipment not covered			
Equipment	through this grant.			
Testing	It is the intent of the district to become an approved Texas Success Initiative Assessment (TSIA) testing site.			
	With a per unit price of \$1.70 (8 units), the district will be able to waive this fee for all participating students.			
Workforce	Precise Machine and Fab and P & L Enterprises will provide participating students access to any equipment			
Experience	and materials that are required for use during their internships/externships.			
	the state of the s			

In addition, it is the intent of the district to coordinate efforts with Palo Alto College to allow qualified high school teachers to become adjunct faculty who can be Board approved to teach dual credit courses. PAC will assist in professionally developing Lytle High School's teachers. Finally, PAC will also offer online dual credit formats that will provide students with college courses in the convenience of their high school classrooms.

Amendment # (for amendments only):

Statutory Requirement 6: Describe possible institutions of higher education partners and how you will develop and maintain the partnership(s). Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Quality of Proposed IHE Partnerships. (10 pts.) Palo Alto College (PAC) has a history of successfully coordinating with Early College High Schools (ECHS) to provide students with college experience while still in high school. Since 2008, Palo Alto College, and its sister campuses, has partnered with three local school districts (San Antonio ISD, Judson ISD, and Comal ISD) as part of an Early College High School (ECHS) initiative. In 2013, 82% of Alamo Colleges' ECHS graduates attained an associate's degree or technical certificate in addition to their high school diploma, which is 350% higher than the national average. Additionally, Alamo Colleges' ECHS graduates earned an average number of 58 college credits, which is 61% more than the national average (22 average college credits).

Beginning in Fall 2014, Palo Alto College increased its partnership to five public school districts and one charter school, in order to begin enrolling freshman-level students in Early College High Schools. Students participating in the program are able to complete their high school diploma while earning up to 60 semester credit hours toward an associate's degree by their high school graduation. All initiatives have been approved and designated by Texas Education Agency and there is no cost to students enrolled in the program. This experience makes Palo Alto College an ideal partner for the ICIA Program.

In order to establish and maintain a strong partnership with Palo Alto College, the district and campus administration will meet with the College President, Dean of Pre-College Programs, Liaison, and College Counselor to develop a MOU that includes all the agreed upon duties and responsibilities as required by this grant. Each of the agencies will agree to appoint a contact person who will be in charge of addressing any questions or concerns as they arise. To maintain a strong partnership, district and college representatives will meet regularly to review student outcomes and address any issues. Finally, each year the college and district administration will meet to review and renew the MOU. This will provide each agency the opportunity to modify the MOU as deemed necessary. The district has obtained a letter of support from an IHE (2 pts.)

Statutory Requirement 7: Describe possible business partnerships that the school will establish, list the types of businesses, proposed work-based education for students and describe how you will develop and maintain the partnership(s). Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Lytle ISD will partner with two separate businesses. Information of each business is included below:

QUALITY OF PROPOSED BUSINESS PARTNERSHIPS (10 pts.)				
Name of Business	Types of Businesses	Proposed Work-Based Education for Students		
Precise Machine and Fab	Precision Machinist and Assemblers	Will provide students with work-based training on manufacturing precision machined products and assembling to a wide range of industries. This will include: Tools, dies, fixtures, special gages, etc.; Industrial machine repair; Short run production machining; Prototype machining and fabricating; and Welding.		
P & L Enterprises		Will provide students with work-based training, which will consist of training on how to Mount, install, align, and secure tools, attachments, fixtures, and workpieces on machines; Adjust machine feeds and speeds, change cutting tools, or adjust machine controls; and Calculate machine speed and feed ratios and the size and position of cuts. In addition, all equipment and materials required to complete tasks will be furnished for the student.		

In order to establish and maintain strong partnerships with Precise Machine and Fab and P & L Enterprises, the district and campus administration will meet with the authorizing officials of each agency to develop their separate MOUs. Each MOU will include the agreed upon duties and responsibilities for each agency. The agencies will agree to appoint a contact person who will be in charge of addressing any questions or concerns as they arise. To maintain a strong partnership, the district representative will meet with the business representatives to review student outcomes and address any issues. These meetings will be conducted jointly, so that ideas can be shared and solutions to issues can be presented. In addition, separate quarterly meetings will be held with each of the partnering businesses in order to provide each business with privacy and discretion. Finally, each year the district administration will meet with each business to review and renew the MOU. This will provide each agency the opportunity to modify the MOU as deemed necessary. The district has obtained a letter of support from each business, that was signed by the President and CEO, which details their commitment to this project. Letter of support from two (2) potential business partners (4 pts.)

Amendment # (for amendments only):

Statutory Requirement 8: Describe how you will work with the Workforce Development Board. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Lytle ISD will work with the Workforce Development Board to create clear pathways that will address regional employers' workforce needs. During the preparation of the application, Lytle ISD contacted Mr. George Hempe, Workforce Solutions Alamo's Executive Director, to request a list of high-demand occupations. Mr. Hempe researched the current trends, as well as, projected occupation growth based on economic and business industry growth. This list was signed and dated by the Executive Director in order to be included in the required Implementation Plan.

Utilizing this data, Lytle ISD will respond to these occupation opportunities by developing innovative high school models that will provide wrap-around services that immerse students in rigorous educational opportunities that identify Texas labor market demands, respond to employer needs, and focus both on educational and employment outcomes. This will include:

- Mentoring;
- Articulation of credits from high school to college;
- Flexibility in scheduling; and
- Work-based education (i.e. internships and externships).

Lytle ISD and Workforce Solutions Alamo will collaborate to identify employers for students upon receipt of their certification, diploma, and associate's degree. Workforce Solutions Alamo representatives will ensure that priority status, in terms of interviewing with participating employers, will be provided to student participants. This requirement has also been included in the attached signed letter of support.

Statutory Requirement 9: Describe how you will ensure that P-TECH or ICIA students are entitled to the benefits of the Foundation School Program. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

As per the rules that were adopted by the Commissioner and as identified in the Texas Education Code, Chapters 41, 42, and 46, funds obtained from the Foundation School Program (FSP), which are allocated based on student enrollment and daily attendance, are to be utilized for school maintenance and operations. Therefore, in order to ensure that ICIA participants reap these benefits in proportion to the amount of time spent on high school courses while completing the course of study, the district will coordinate efforts with Palo Alto College to allow qualified high school teachers to become adjunct faculty who can be Board approved to teach dual credit courses at the campus. In addition, Palo Alto College will also offer online dual credit formats that will provide students with college courses in the convenience of their high school classrooms.

In this manner, students will have the ability to remain at the campus during many of their courses and benefit from the facility resources provided through the use of FSP funds. These resources will include but are not limited to the following:

- Use of the campus library to complete assignments and conduct research;
- Classroom space for study groups and mentoring sessions;
- Access to computers, software, curriculum, and Internet; and
- Use of casting machines, milling machines, drilling machines, welding machines, grinders, laser printers, etc. needed for training in Advanced Technologies and Manufacturing courses.

These proposed strategies will be formalized within the IHE articulation agreement or Industry/Business Partner Memorandum of Understanding.

### Schedule #17—Responses to TEA Program Requirements

County-district number or vendor ID: 007-904

Amendment # (for amendments only):

**TEA Program Requirement 1:** Describe the team that will complete the implementation plan and how you will ensure the implementation plan is completed by the required due date. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The management plan is designed to achieve the objectives of the proposed program on time and within budget, with appropriate timelines and milestones for accomplishing project tasks. (5 pts.) Lytle ISD will assemble a Leadership Design Team which will be responsible for ensuring that the implementation plan is completed and submitted to TEA for review by the January 15, 2019, due date. The proposed Leadership Design Team will consist of: Superintendent, Assistant Superintendent, Business Manager, Principal, Vice Principal, Business Manager, Lytle High School Counselor; College President; Dean of Pre-College Programs; Palo Alto College Liaison; Palo Alto College Counselor; and partnering businesses.

The diversity of this team will provide an array of expertise and feedback which will help to assure the Implementation Plan is completed accurately and addresses all measures. The table below describes each proposed member of the

Leadership Design Team:

	**
Superintendent, Assistant	Their leadership skills will be instrumental to developing the vision for this program. As
Superintendent, Principal, and	the primary leader in each respective area, they will have the ability to identify and
College President	commit resources needed to address all measures in the implementation plan.
Assistant Superintendent and	Their knowledge of available curriculum, available courses, and teachers/instructors will
Dean of Pre-College	provide insight needed to develop new courses and organize schedules.
Programs	
Business Manager	The Director of Finance will monitor proposed expenditures and ensure funds are
	available to cover all proposed costs.
Counselors	Their knowledge of student needs, available courses, and teachers/instructors will
	provide insight needed to develop new courses and organize schedules.
Liaison and Partnering	The liaison and partnering business will provide insight on available employment
Businesses	resources and will coordinate efforts to provide students with internships and
	externships.

**TEA Program Requirement 2:** Describe the committee structure that will be put into place to provide leadership, communication and decision making for the P-TECH or ICIA program. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The level of involvement and commitment to the program of all participants, including management, staff, collaborators and partners, is sufficient to ensure the successful implementation of the program goals, objectives, and activities. (4 pts.) Lytle ISD will create a committee that will utilize a blend of various structures to provide leadership, communication and decision-making for the ICIA Program. The structure will include the following elements:

- **Program Committee Structure** While staff carries out the day-to-day activities that result in the development and implementation of the organization's programs, this structure is charged with long-range planning and general oversight;
- Planning Structure The planning structure allows for the responsibility of developing and updating plans for approval. This includes monitoring the implementation of the plan and reporting on its progress; and
- New Program Development Structure A new program development structure brings board members, consultants, funders, and representatives of the community together to find a creative solution to organization challenges. This structure is great when it is time to brainstorm about ideas to keep relevant in the face of changing demographics or trends.

Individuals that will be part of this structure will include the Superintendent, Assistant Superintendent, Business Manager, Principal, Vice Principal, Business Manager, Lytle High School Counselor; College President; Dean of Pre-College Programs; Palo Alto College Liaison; Palo Alto College Counselor; and partnering businesses. By having various stakeholders participate in the Leadership Team, the district ensures that there will be a level of involvement and commitment to the program by all participants, including management, staff, collaborators and partners.

#### Schedule #17—Responses to TEA Program Requirements (cont.)

County-district number or vendor ID: 007-904

Amendment # (for amendments only):

**TEA Program Requirement 3:** Describe the structures and systems that will be put into place to strengthen both the academic and social/emotional skills necessary for high school and college readiness, as well as provide academic and social/emotional support for students to be successful in rigorous academic and work-based educational experiences. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

In preparation for the submission of the 2018–2019 P-TECH and ICIA Planning Grant, Lytle ISD has researched and planned for wrap-around structures and systems that will be put into place to strengthen students' academic and social/emotional skills. These structures and skills are also essential for ensuring the students' success in their rigorous academic and work-based educational experiences. These will include:

- Academic mentoring and support for intervention and acceleration, such as personalizing students' learning environment in the following ways:
  - > Developing a plan for on-going academic support;
  - > Providing tutoring or Saturday school for identified students;
  - > Providing advisory and/or college readiness and support time built into the program of study; and
  - > Establishing a mentorship program.
- Counseling, guidance, and student advisory services for academic and social/emotional support, such as:
  - > Parent outreach:
  - > Connections to social services;
  - Peer mentoring;
  - > Parent outreach and involvement opportunities;
  - > A structured program of community service to promote community involvement;
  - > Partnerships with community businesses to expose students to a variety of potential career options and possible internship opportunities;
  - > College awareness to current and prospective students and families, including:
    - Application assistance,
    - Financial aid counseling, and
    - College and career counseling.

**TEA Program Requirement 4:** Describe the methods and timeline that the campus will utilize to ensure that the campus becomes a Texas Success Initiative assessment site by 2019–2020. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The district contacted Ms. Montognese, who is the Senior Assessment Manager for the Texas Higher Education Coordinating Board (THECB), in order to determine the process for becoming a Texas Success Initiative assessment site by 2019–2020. This was important in order develop a working timeline.

Based on information obtained from Ms. Montognese, the district will obtain an ACCUPLACER platform account and complete a New Institution Registration (which can be found under the Professionals tab) in order to start the approval process. As per the suggestion of the THECB, a district account will be obtained, rather than a high school account, which will make it easier to manage and setup. This process will include identifying points of contact, providing account information, and creating a user name and password.

Once the account has been set up, the district will have their Testing Coordinator, Counselor, Principal, and Master Teacher complete the required trainings on the ACCUPLACER platform. This will include reviewing all the offered materials embedded within the system, as well as, the free online webinars available on the specific platform features. In order to ensure that this process is completed by the required date, the district will begin this process upon notice of grant award.
